BRAND BASICS

Version 1 · 11 September 2026

The colours are named for the course

Fairway, forest, birdie, flag. The palette borrows the language of the game rather than numbering itself primary and secondary, so anyone briefing a change can say which green they mean. Every colour on the website resolves to one of the twelve values below.

COURSE COLOURS

Six values carry the brand

Slate is the ink and the dark ground. Fairway is every action; forest is that action pressed. Birdie only appears on dark. Flag is reserved for a saving or an alert — never decoration. Sunrise is the logo's yellow: the active dot in every carousel, and a price that is not set yet.

Slate
#141A28
Headings, body ink, footer and dark sections

Fairway
#137C19
Primary action — buttons, links, rules

Forest
#0D5912
Hover and pressed states only

Birdie
#55DA5D
Accent on dark grounds — eyebrows, active dots

Flag
#CA0C26
Season saving, cart count, alerts

Sunrise
#F2E208
Active slide marker, and a price not set yet

SUNRISE, IN USE

Yellow is a ground, not a colour of type

Against white it scores 1.34:1 and all but disappears. It reads only with slate behind or in front of it — 12.96:1 — so on the site it is always a ground with slate ink on top.

DO — 12.96:1

TBD

Yellow is the ground, slate is the ink.

DO NOT — 1.34:1

TBD

Yellow as type on white all but disappears.

GROUNDS AND TEXT

Six neutrals

Parchment alternates with white down a page to separate one section from the next. The three text greys are a hierarchy, not alternatives: body, then labels, then hints.

White
#FFFFFF
Default ground

Parchment
#EEF7EE
Alternate section ground

Mist
#EAECF0
Hairlines, image placeholder

Body
#38404F
Paragraph text

Stone
#57637F
Labels, captions

Faint
#9AA2B0
Hints, pending states

TYPOGRAPHY

Two faces, one scale

Schibsted Grotesk sets everything that carries weight. Inter carries everything that is read at length. Nothing else is licensed for the brand.

The flag ribbon sits on the bottom edge of a photo. A 44px fairway rule opens a section under its heading.

SPACING

Every gap is a multiple of four, from 4 to 100. Container 1600px, gutters 40px, narrowing to 22px and 18px on smaller screens.
